FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. HOUSE PRINCIPLES ANALYSIS:

Provide limited government: The bill prohibits the use of an alcohol vaporizing device.

B. EFFECT OF PROPOSED CHANGES:

Alcohol vaporizing devices: An alcohol vaporizing device which is also known as an alcohol without liquor machine or AWOL allows users to inhale alcohol in the form of vapor. The device works by pouring an alcoholic spirit into a diffuser capsule in the alcohol vaporizing device. The alcohol is absorbed by oxygen bubbles, and the user inhales the alcohol vapor. Alcohol vaporizing devices are being marketed on the internet as a low calorie and hangover free way to consume alcohol. There does not appear to be any evidence supporting either of these claims. There are obvious health risks associated with consuming a large amount of alcohol in a short amount of time. There is currently no federal or state regulation of these devices.

HB 95 creates s. 562.61, F.S. which provides that no person shall purchase, sell, offer for sale, or use an alcohol vaporizing device. The bill makes it a first degree misdemeanor to sell or offer for sale an alcohol vaporizing device. A person who violates the provision by selling or offering for sale an alcohol vaporizing device after having been previously convicted of such offense within the past 5 years commits a third degree felony. A person who purchases or uses an alcohol vaporizing device shall be subject to a \$250 fine.

The term "alcohol vaporizing device" is defined as "any device, machine, or process which mixes spirits, liquor or other alcohol products with pure oxygen or other gas to produce a vaporized product for the purpose of consumption by inhalation."
